EDGER TROWEL BLADES

\*Finished the floor closest to the walls

# FLOAT PANS THICKNESSES

- 10 gauge steel (HRPO)
  - Longer life and more square footage

Standard 4'-5' pans

# THE ROADRUNNER - FLAT PANS

## FLOAT PANS

THE ROADRUNNER –  
FLAT PANS

THE ROCK –  
SUPER FLAT PANS

THE MASTER –  
UNIVERSAL FLAT PANS

EDGER PANS

FLOAT CLIP-ON

- The Roadrunner - 12 GA
- The Roadrunner - 11 GA
- [The Master - 10 GA](#)

 1/4" – 3/8" Rise from center

\*For easy steering & operator control

\*Mainly used on walk-behind and mechanical ride-on (lighter machine)

# THE ROCK – SUPER FLAT PANS

## FLOAT PANS

THE ROADRUNNER –  
FLAT PANS

THE ROCK –  
SUPER FLAT PANS

THE MASTER –  
UNIVERSAL FLAT PANS

EDGER PANS

FLOAT CLIP-ON

- 12 GA (Walk-behind)
- 3' - 11 GA
- 4', 5' - 10 GA

0" – 1/8" Rise from center

\*For super flat floors and high FF number

# THE MASTER - UNIVERSAL FLAT PANS

## FLOAT PANS

THE ROADRUNNER –  
FLAT PANS

THE ROCK –  
SUPER FLAT PANS

THE MASTER –  
UNIVERSAL FLAT PANS

EDGER PANS

FLOAT CLIP-ON

- 4'
- 12 GA
- 11 GA
- 10 GA

\*fit any kind of machine available in your area

\***The Master** can be made in super flat and flat pans

# EDGER PANS

## FLOAT PANS

THE ROADRUNNER –  
FLAT PANS

THE ROCK –  
SUPER FLAT PANS

THE MASTER –  
UNIVERSAL FLAT PANS

EDGER PANS

FLOAT CLIP-ON

• 14 GA

\*85° angle lip allows to finish the floor closest to the walls

# FLOAT CLIP-ON

## FLOAT PANS

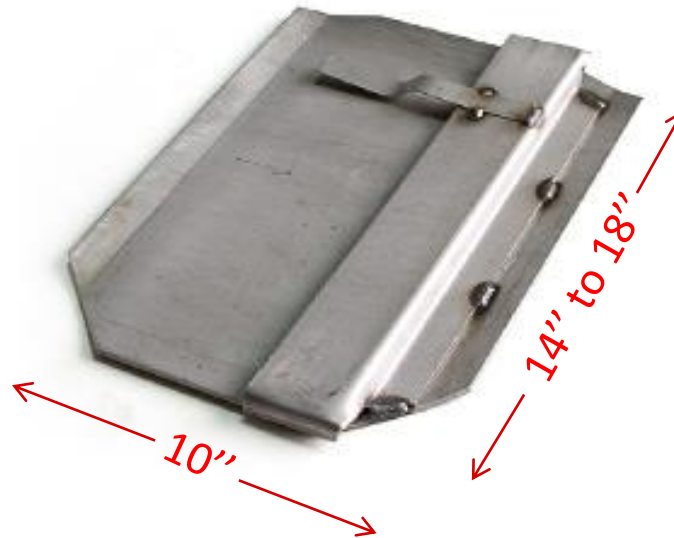

THE ROADRUNNER –  
FLAT PANS

THE ROCK –  
SUPER FLAT PANS

THE MASTER –  
UNIVERSAL FLAT PANS

EDGER PANS

FLOAT CLIP-ON

• 11 GA

\*80 % are made with 10 GA steel (waste metal from float pan cutting)

# FLOAT PANS

## PRODUCTION PROCESSUS BENEFITS

- Unique stress relief process :
  - More consistent “flat” pans
  - Eliminate waving
  - Ideal angle lips that allows mix to move under pan instead of being pushed/plowed
  - Heavy duty MIG-welded steel “Z” or safety catch bracket

**→ All those technical points improve efficiency of the pans**

# MOUNTING BARS
